

Shadowed to Death

As to people not understanding, first thought that it was wrong, that I was just saying that. But the Holy Spirit happened to have the scientific instruments, and the people there, for a vindication, and took the picture of It several times.

I said, "I see a person shadowed to death," black shadow over them. A few weeks ago when I was in a city, and when we're preaching, you're not supposed to take pictures, you know, while they're preaching. Same thing was when that was took. But someone had a camera. And I said to a lady setting out there, a stranger... I was in Southern Pines. I said, "There is a shadow over this Miss so-and-so." A lady that I'd never seen in my life. "You just come from the doctor; and two cancers, one on each breast, and you're given up. You are shadowed with a black hood to death."

And something said to a sister sitting by who had a flash camera, said, "Take the picture." And she didn't want to do it. Yet, "Take the picture," and she still refrained. And then again it come. And she grabbed the picture... and shot the picture. And there it is, scientifically. It's on the bulletin board: black-hooded shadow.

Then, when the woman believed and prayer was made, a picture shot right straight back behind it: clear. I said, "The shadow has gone." The lady lives by the grace of God.
